Dear Judge Furman:

The MAC will only permit me half-sheets to write on. I ~~can~~ ask the Court to order the CTSO to conduct a Classification Review of the afternoon classified hearing on June 3, 2022 (Friday); and to produce this to me, particularly the on-the-record guarantee from the prosecutors and this Court that I could safely turn over the laptop to the government—who would not conduct any searches, but merely COPY the drive onto a new drive. I have requested this transcript as has my attorney for many months now, and it has yet to be provided. It has long past the Court's set deadlines for classification review—and the 6/3/22 discussions about the laptop are clearly unclassified.

~~It~~ It has been relayed to me that the government will NOT provide the filenames of the purported

"child pornography" that was "discovered" on the discovery laptop. In the absence of our ability to simply know these filenames, I URGE the Court to review these files in camera as I can assure you that there is absolutely no chance any child pornography has ever been copied onto that laptop by me, and I suspect the government is lying and claiming that innocuous files produced by the government in discovery are "child pornography."

Finally, I note for the Court that I still have not been provided access to any of my discovery for the pending trial — since the illegal confiscation of the laptop in July. I also still do NOT have my trial notes and Rule 29/33 drafts. I ask for a pretrial conference at your earliest convenience (though not on Wednesdays).

Respectfully Submitted,

Josh Schulte
